

March 26, 2024

Arif Sarwat
Department of Electrical and Computer Engineering
College of Engineering & Computing
Florida International University

Dear Professor Sarwat,

I am pleased to notify you that you were nominated by your College and have been selected to be honored as an FIU Top Scholar awardee for the academic year 2023-2024. The recognition for your Research and Creative Activities is in the category of Established Faculty with Significant Grants (Sciences). I congratulate you on your efforts to bring together students from indigenous tribes and other local communities in recruitment and outreach efforts to educate the next generation in clean energy

A breakfast honoring the 2023-2024 Top Scholar recipients will be held on April 16th, 2024, at the Frost Art Museum, Room 105, on MMC from 9:30 am-11:30 am. Please RSVP by April 9th by completing a survey using this [link](#).

Thank you again for your outstanding work and scholarly contributions.

Congratulations!

A handwritten signature in blue ink, appearing to read 'Elizabeth M. Béjar', written over a light blue circular watermark.

Elizabeth M. Béjar, PhD
Provost, Executive Vice President, and COO

C: Heather Russell, Vice Provost of Faculty Leadership and Success
Ines R. Triay, Interim Dean, College of Engineering & Computing
Deidra R. Hodges, Chair, Department of Electrical and Computer Engineering
