

SUCCEED ECED:PHD Program of Study Form

OVERVIEW: The Program of Study form provides students an overview of the program requirements and a single form to use to track doctoral coursework. This form will be used as part of the annual evaluation and mentoring plan review process. This form should be included with the D-2 form when submitting to the Graduate Program Director for review and approval.

INSTRUCTIONS:

1. **Determine which form to use.**
 - a. Students who are transferring in coursework (i.e., they took graduate coursework during their undergraduate program, they previously received a Master's degree, they have an incomplete graduate degree) should use the Transfer Credit form, which provides an overview of the transfer credit policy.
 - b. Students who are NOT transferring coursework can use the standard Program of Study form.

2. **Record planned and current coursework.** The form is designed to enable students to track their current courses and to record potential terms when they will complete graduate courses.

3. **Share this form with Advisor each semester.** Students should share this form with their advisor before registering for courses each semester. This form is meant to be dynamic and therefore, to be updated on a semester-by-semester basis.

4. **Submit a copy of this form with your D-2.** This form should be submitted to the GPD with your D-2 along with the other attachments. NOTE: If you are transferring courses, refer to 4a.
 - 4a. If a student is transferring courses, they should share the form at least one semester prior to submitting their D-2 (in other words, completing 60 credits of coursework and their comprehensive exam).

PhD Engineering and Computing Education Course Requirements

Eng & Comp Education Foundations (12 Credits)

Course #	Course Title	Credits	Term	Grade
EGS 6008	Foundations of ECED	3		
EGN 6957	Professional Development	2		
EGN 6900	Meth. & Practices in ECED Res.	3		
EGN 6057	Equity in STEM Education	3		
	Credit Total			

Research Methods & Statistics Elective (9 Credits)

Course #	Course Title	Credits	Term	Grade
EDF 6481	Education Res. Methods			
	Credit Total			

Specialization Courses (9 Credits)
